

Majji Durga Rao

Gowlidoddy, Hyderabad, Telangana • 8817666164 • sde10durga@gmail.com • <https://github.com/Durga00110>

Full Stack Developer with 5+ years of experience building scalable applications using **React, React Native, TypeScript, and Node.js**. Expert in **micro frontend architecture, system design, and performance optimization**, delivering high-quality solutions across **BFSI, E-Commerce, and Government domains**.

Experience

2024– PRESENT

Software Developer Engineer | HTC Global Services | Hyderabad, Telangana | AMFAM

- Acted as **SME (Subject Matter Expert)** for **Third-Party Interest (TPI) feature**, enabling management of external stakeholders and ensuring accurate claim handling in insurance workflows.
- Enhanced code quality using **Redux and TypeScript**, and led **unit testing across 100+ components**, achieving near **100% test coverage**.
- Built reusable, WCAG-compliant UI component library using MUI, improving development efficiency by 30% and ensuring consistent UX across platforms.
- Designed a **Node.js Data Abstraction Layer (DAL)**, optimized data flow, improved performance by **50%**, and handled **production bug triage and on-call support**.

OCT 2022 – AUGUST 2024

Programmer Analyst | Bodex LLC | Bhilai, Chhattisgarh | The Blind Man Next Gen Sales App

- Developed a scalable sales platform using the **MERN stack, MSSQL, and React Native**, delivering intuitive UI, seamless data sync, and cross-platform accessibility.
- Optimized architecture and built a **Document Management System (DMS)**, improving scalability by **60%** and enabling secure document handling.
- Implemented a **RAG-based AI chatbot UI**, enhancing user interaction with context-aware communication and improving overall user experience.

JAN 2021 – JAN 2022

Intern | Centinel Spark Technologies Pvt. Ltd. | Hyderabad, Telangana | TSWRSEIS

- Built and deployed a responsive web platform using **HTML, CSS, and JavaScript**, designed intuitive UI with interactive features, and mentored students in **web development and robotics**, improving operational efficiency and digital adoption.

Skills

HTML5, CSS3, JavaScript, TypeScript, React, React Native, Redux, Hooks, Node.js, Express, MongoDB, PostgreSQL, Monolithic & Microservices Architecture, REST API Design, Jest, Micro Frontend, Material UI, Bootstrap, Accessibility Testing, Version Control, GitLab, CI/CD, Git, NX Console, GitLab, Atlassian Jira, Datadog, Postman, CMS, Relate, Optimizely, Reactive Programming, Chrome DevTools, Android Studio, Xcode, React Native CLI, Expo, AWS, RAG, Ollama, AI Agents, Chatbots, DynamoDB, JWT, Storybooks, Lighthouse, Vite, NextJS, React advance Patterns, System design, SOLID Principles, Performance optimization, Docker, Flipper (React Native Debugging).

Education

MAY 2019

Bachelor of Engineering | Chhattisgarh Swami Vivekanand Technical University | Bhilai, Chhattisgarh
Electronics & Telecommunication Engineering ~ 6.8 GPA

Projects / Interest

Secure Authentication System

- Implemented authentication and role-based access control using JWT and Node.js.

Scalable File Upload System

- Built file upload system using MongoDB GridFS and Multer for handling large-scale data efficiently.

AI Chatbot with RAG Architecture

- Built a React.js and TypeScript-based chatbot integrating Retrieval-Augmented Generation (RAG) with LLM APIs (Ollama), enabling context-aware responses through vector-based document retrieval and optimized real-time UI interactions.

Certifications and Achievements

- Atlassian Agile Project Management Professional Certificate
- Programming Foundations: Secure Coding
- Context Engineering Certification. (Generative AI)
- Full Stack Web Development Internship Program - Best performer
- Agile Foundations
- Git Essential Training
- Scrum: The Basics
