

MAJJI DURGA RAO

Software Developer | Node.js (Express.js) • React.js • TypeScript • Redux • RESTful APIs

Hyderabad, Telangana • 8817666164 • sde10durga@gmail.com • LinkedIn • Portfolio

PROFESSIONAL SUMMARY

Software Developer with 5 years of experience building scalable, high-performance, accessible web applications using Node.js (Express.js), React.js, TypeScript, and Redux. Delivered 30% faster application performance, 50% faster API response times, and 60% improved platform scalability across Insurance, E-Commerce, and Government platforms. Skilled in backend API architecture, component-driven architecture, micro frontends, WCAG 2.1 AA accessibility, CI/CD pipelines (GitLab CI), AWS (EC2, Lambda, API Gateway, S3), and cross-functional collaboration in Agile/Scrum teams.

CORE COMPETENCIES

Frontend Development: React.js (Advanced), TypeScript, JavaScript (ES6+), Next.js, HTML5, CSS3, WCAG 2.1 AA / ARIA

Backend Development: Node.js (Advanced), Express.js, RESTful API Design & Development, JWT Authentication, RBAC

State Management: Redux, Redux Toolkit, Context API

Architecture & Design: Component-Driven Architecture, Micro Frontends, Design Systems, MUI, Storybook, Bootstrap

Testing & Quality: Jest, React Testing Library, Code Reviews, Secure Coding (OWASP), Unit Testing

DevOps & Cloud: CI/CD (GitLab CI), Webpack, Vite, Git/GitHub/GitLab, Docker Basics, AWS (EC2, Lambda, API Gateway, S3), Datadog

Databases: MongoDB (Advanced), PostgreSQL (Basic — backend integration, no query authoring)

Methods & Tools: Agile/Scrum, Jira, Confluence, React Native, Postman Enterprise

Currently Learning: GraphQL

PROFESSIONAL EXPERIENCE

Software Development Engineer (React Developer)

Aug 2024 – Jun 2026

HTC Global Services, Hyderabad, Telangana | Project: AMFAM Insurance Platform

- Led development of stakeholder and claim-management workflows as SME for the Third-Party Interest (TPI) module, using React.js, TypeScript, and Node.js (Express.js).
- Boosted application performance by 30% through code splitting, lazy loading, and React optimization techniques.
- Engineered a scalable Node.js (Express.js) data access layer, cutting API response times by 50% and improving service decoupling.
- Deployed and configured AWS services (EC2, Lambda, API Gateway, S3) to support backend infrastructure and API hosting for the TPI module.
- Developed reusable, WCAG 2.1 AA-compliant UI components with Material UI, reaching 98%+ test coverage via Jest and React Testing Library.
- Collaborated in Agile/Scrum ceremonies, design reviews, and code reviews — using GitLab CI pipelines for automated build and deployment — to raise team-wide code quality.

Programmer Analyst (Full Stack / React Developer)

Oct 2022 – Jul 2024

Bodex LLC, Bhilai, Chhattisgarh | Project: The Blind Man — Next-Gen Sales Platform

- Delivered a cross-platform SaaS application on the MERN stack (MongoDB, Express.js, React, Node.js) and React Native for field sales operations.
- Architected a document management system that improved platform scalability by 60% with secure, role-based access.
- Integrated RESTful APIs and a RAG-based AI chatbot (Ollama), and improved load performance through code splitting and lazy loading.

Full Stack Web Development Intern

Jan 2022 – Aug 2022

Edureka

- Built full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js) as part of an intensive, hands-on training program.
- Earned the Best Performer Award for top project delivery and technical performance among all interns in the cohort.

ICT Instructor

Jan 2021 – Dec 2021

Centinel Spark Technologies Pvt. Ltd., Hyderabad, Telangana | Project: TSWRSEIS Government Platform

- Created responsive, accessible government and educational web applications using HTML5, CSS3, JavaScript, and Bootstrap.
- Trained 100+ students across 3 batches in web development, robotics, and IoT, mentoring hands-on capstone projects.

KEY PROJECTS

- **Secure Authentication System:** Implemented Node.js (Express.js) and JWT-based authentication with RBAC following OWASP standards, reducing unauthorized access incidents to zero during pilot testing.
- **DevPulse (Personal Project):** Designed and developed a production-ready Next.js web application with a scalable, component-driven architecture, cutting initial load time by 25%, as a self-driven exploration of Next.js.

Portfolio & Open Source: portfolio-gamma-two-32ga8culbx.vercel.app • github.com/Durga00110

EDUCATION

Bachelor of Engineering — Electronics & Telecommunication | Chhattisgarh Swami Vivekanand Technical University, Bilai | May 2019

CERTIFICATIONS & ACHIEVEMENTS

- Atlassian Agile Project Management Professional Certificate (2023)
- Programming Foundations: Secure Coding — LinkedIn Learning
- Context Engineering Certification (Generative AI), 2025
- Scrum: The Basics; Agile Foundations; Git Essential Training — LinkedIn Learning

ADDITIONAL LEARNING & ACTIVITIES

- Participated in internal hackathons focused on AI-assisted developer tooling and rapid prototyping.
- Completed self-paced coursework in system design fundamentals and cloud architecture on AWS.
- Contributed actively to open-source projects; maintains a personal portfolio and side projects on GitHub.
